Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I Claims 21-28 are drawn to a method of manufacturing a magneto resistive sensor/transducer, classified in Class 29, subclass 603.16.

Group II Claims 1-20, 29-31 are drawn to a magneto resistive sensor/transducer, classified in Class 360, subclass 113.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make another and materially different product or (2) that the product as claimed can be made by another and materially different process (M.P.E.P. § 806.05(f)). In the instant case the magnetic sensor/transducer can be fabricated using steps which do not follow the same chronological order of the claimed steps.

2. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and require divergent fields of

search, restriction for examination purposes as indicated is proper.

3. A telephone call was made to Mr.G. O. Saile on 20 April 1999 to request an oral election to the above restriction requirement, but did not result in an election being made.

4. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to A.J. HEINZ whose telephone number is (703)308-1544.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 305-3900.
